1

FIELD EXECUTION SUPPORT FOR CRITICAL PROJECT PHASES for Solar & BESS Projects

We deploy experienced field teams across construction, commissioning, and project delivery for solar and energy storage systems.

- US Nationwide Deployment
- Fast Mobilization
- OEM & EPC Integration

2

CORE FIELD SERVICES

Field execution across construction, commissioning, and early operations

CONSTRUCTION EXECUTION

- Mechanical installation (piling, trackers, modules, inverter, BESS)
- Electrical (DC/AC, MV interfaces)
- Field supervision & QA/QC

COMMISSIONING & INTEGRATION

- Pre-commissioning & energization
- Functional testing & grid compliance
- PCS, MV Skids, & BESS integration

TROUBLESHOOTING & REWORK

- Electrical and system-level fault resolution
- Firmware, controls, and communications issues
- Retrofit work and wiring corrections

PUNCH LIST CLOSURE

- Closing gaps between completion & COD
- Multi-crew execution under tight deadlines
- Coordination with EPC/OEM to clear critical path items

O&M & STABILIZATION

- Early operations technical support
- Preventive & corrective maintenance

3

WHY LATNOVVA

Execution capability that reduces project risk and keeps sites moving

SPEED OF DEPLOYMENT

- Fast mobilization across the US
- Rapid response to critical site needs

TECHNICAL DEPTH

- Experience across PV, BESS, and MV systems
- Hands-on experience with major OEM platforms (Sungrow, Power Electronics, SMA, etc.)
- Familiar with integration, commissioning, and troubleshooting across different system architectures

EXECUTION UNDER PRESSURE

- Experience supporting projects during commissioning and close-out
- Resolve critical issues on active sites without disrupting progress

FLEXIBLE SCALING

- From single specialist dispatch to full field crews
- Short-term support or long-term project execution

4

TECHNICAL LEADERSHIP & FIELD EXECUTION

Engineering-led teams supporting construction, commissioning, and field execution

LEADERSHIP

- Led by engineers with hands-on experience across solar PV, BESS and industrial projects
- Direct involvement in commissioning, troubleshooting, and project close-out.

EXECUTION TEAM

- Supervisors and technicians with real project experience, not just certifications.
- Familiar with major OEM platforms and typical site challenges.
- Integrates into EPC or owner teams for seamless execution.

HAVE A SITE THAT NEEDS SUPPORT?

We can deploy quickly to support construction, commissioning, troubleshooting, and project close-out

Let's set up a quick call to understand your current needs and see where we can support
